Response to Amendment

Drawings

1. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, "the carriage side communication device" and "supply unit communication portion" must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Art Unit: 2861

Two features: "the carriage side communication device" and "supply unit communication portion" as specified above are recited in at least claim 1. However, they are not indicated in the appropriate drawing(s) so as to aid the Examiner to understand the invention, and then to find appropriate reference(s) to reject this claim (claim 1). Therefore, claims 1-8 are held rejectable until indication for "the carriage side communication device" and "supply unit communication portion" are properly indicated in drawing(s). By then, either a new rejection based on a new search is given to at least claim 1 or claims 1-8 are allowed.

For the rejection to claims 1-3 and 5-8, please refer to the final rejection, claim 4 still allows.

2. Claims 9,11-17 and 19 are allowed.

3. Because a details of the "the carriage side communication device" and "supply unit communication portion" are not known yet, claims 1-3 and 5-8 are pending. In the meantime, the finality to this application is withdrawn.

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Shih-wen Hsieh whose telephone number is 571-272-2256. The examiner can normally be reached on 7:30AM -5:00PM.
